Review

"I really appreciate the author citing real-life Canadian examples that explain why technical communications is so important in the workplace."

--Dylan Stephan Yanchynski, Red River College

"The writing style is very student-friendly. As such, it is less likely to intimidate the readers, and more likely to get the students to actually read the chapters."

--Paula Crooks, Conestoga College

"Because many of the students in my classes are engineering or computer science students, the inclusion of IEEE documentation style is extremely useful. . . . The chapters on writing techniques are excellent: they are thorough but concise. . . . The students really appreciate the detailed discussion of oral presentations, [which] incorporates every aspect of presentations they need to consider."

--Lisa Bryce, University of Calgary

"One of [this text's] strengths is that the documents it models and issues it discusses are relevant... A great example of the work done to support this is the instructor companion material in several chapters, which provides internet links to multiple resources. . . . Very useful."

--Shannon Smyrl, Thompson Rivers University

About the Author

Thorsten Ewald is a full-time technical communications instructor at the British Columbia Institute of Technology (BCIT) as well as a consultant and trainer in corporate technical communications. He holds a Master's degree in literature and rhetoric from the University of British Columbia.
